Breaking the Code

Alan Turing

We are proud to continue our partnership with GATA and are excited about their upcoming shows for 2024.

This Spring we have Surrey Mozart Players on 11th February at 4:30pm with harp soloist Cecilia De Maria.

We also have the return of The Guildburys Theatre Company from 20th to 23rd March with "Breaking The Code", which is an exceptional biographical drama about a man who broke too many codes: the eccentric genius Alan Turing who played a major role in winning World War II; he broke the complex German code called Enigma, enabling allied forces to foresee German manoeuvres.

DON'T MISS OUT ON THESE TWO BOOKS BY AUTHOR JULIE BUCKINGHAM!

The Alligator's Labyrinth

THE ALLIGATOR'S LABYRINTH is in the 22nd Century, and Planet Deito lies beyond time and space, where anything can happen! Janella Black is a medium who 'sees' things other can't. In 'seeing' the Lize-nards she can sense their threatening menace, and becomes an avatar for her small planet, determined to fight off the Lize-nards advances with the aid of her group of men-friends, who are Government agents working with her in an 'invisible' way, but her love life becomes complicated when she meets them...

"Very entertaining, a good yarn for a fantasy!" **Sarah**

THEY WALKED INTO DARKNESS. Based on a true story of the American Wild West in 1838. Ellie is a young Cherokee teenager whose native American family are forcibly removed from their

Indian village by Government troops. The indigenous people were made to walk gruelling miles to a new location. This is the story of her adventures through the wilderness. And as thousands of Indians die, Ellie falls ill herself as the dreadful march through snow and ice continues...

"I enjoyed this book. It's a deeply meaningful human story, well written with detailed description of Red Indian culture. Very well researched. Thank you." **Maryam Sharp**
